About Me

Driven and passionate software enthusiast with a strong foundation in engineering as I found that is my passion, seeking an exciting and fulfilling role in software development and engineering. Eager to apply and expand my current skill set while building a long-term, progressive career and gaining valuable experience in the dynamic world of software development.

Technical Projects

Hospital Module with main configurations
https://github.com/shaher2017/Odoo_Hospital_Module.git

Watch List app <https://6521e861b8d01f475c8af09a--delicate-macaron-457334.netlify.app/>

Demo e-commerce app <https://master--tangerine-marshmallow-7195d7.netlify.app/productlist>
